User Manual

1. Introduction

This wireless presenter is suitable for any presentation or PowerPoint occasion. With it, you don't need to stand beside your computer or have an assistant. It is very simple to use, just plug and play, and no driver is required.

The device enables you to control your presentation wirelessly up to 15 metres (48feet) away, thanks to the advanced Radio Frequency (RF) technology that works through walls.

It combines the functions of a laser pointer, remote control and mouse. It is tailored as a convenient tool for presentations, teaching, meetings, speeches and training etc.

2. Operating system

The device supports Windows 98 / ME / 2000 / 2003 / XP / Vista / 7, Linux and Mac OS.
