

Quick Start Guide

August USB Freeview TV Receiver (DVB-T205)

Thank you for purchasing our August product, please follow the instructions below to install the device.

1. Install the driver from the software CD supplied.
2. Install the TotalMedia player. You will find a new icon "TotalMedia" on your computer desktop after the installation.
3. Connect the USB device with a rooftop aerial, then plug it into a USB port of your computer. Double click the "TotalMedia" icon on the computer desktop, click "TV" then follow the instructions to scan channels. Once the scan has finished, all the channels found will be saved by TotalMedia. Click "EPG" icon on the operation panel, all the TV and radio programs found will show.
4. For further instructions on how to watch or record TV programs using the TotalMedia player, please click "?" on the TotalMedia menu bar for help.
5. If you have experienced any difficulty when using this device, please read the FAQs in the user manual.
6. For any further queries, please telephone August International Ltd helpline 0870 850 3525 or email service@augustint.com
