9. 3.5mm Audio Jack

Indication	LED Status
Power On / Reconnecting	Flashing blue (quickly)
Pairing	Flashing red and blue alternately
Paired	Flashing blue (slowly)
Low Battery	Flashing red
Charging	Red
Fully Charged	Blue

5. Operation

5.1 Power

Please fully charge the EP765 before first use or if left unused for a long period of time.

To charge, use the power cable to connect the headphones to a powered USB port.

Whilst charging, the status LED lights red and turns blue once fully charged.

Ensure the output voltage from the USB port or the charger is 5V. Charging voltage greater than 5V may damage the headphones.

5.2 Switch On / Off

Press the Power Button for 2 seconds to switch on the EP765. The EP765 will enter reconnection mode and status LED will flashes blue.

Press and hold the Power Button for 3 seconds to switch off the EP765.

5.3 Bluetooth Connections

The EP765 will enter reconnection mode after switching on and will connect to any previous known device automatically.

To pair to a new device, turn off the EP765 first then press and hold the power button for 5 seconds to enter pairing mode. In pairing mode the status LED will flash red and blue alternately.

-For mobile phones and tablets

- 1.Scan for available Bluetooth device on your mobile phone or tablets. (Please consult your device's user manual if necessary)
- 2.Select 'EP765' from the available devices and confirm the connection. Some devices require a pin code. If this is the case, please enter the code '0000'.
- 3.Once successfully connected, the status LED will lights blue slowly.

-For computers

- 1.Enable the Bluetooth function on your computer.
- 2.Select 'Device and Printers' from the Control Panel and click 'Add a Device'.
- 3.Select 'EP765' from the available devices, the system will install the driver automatically. If a pin code is requested, please enter the code '0000'.

- 4.Once successfully paired and connected, the status LED will lights blue slowly.

The EP765 could connect dual devices at the same time. After connecting the first device, press and hold the Power Button for 3 seconds to switch off the EP765. Then press and hold the power button for 5 seconds to enter pairing mode, and then connect second device with EP765.

5.4 Noise Cancelling

Use the ANC switch to turn on / off the noise cancelling. The ANC LED will light blue while ANC is enabled.

5.5 Audio – In

To use the EP765 as a pair of wired headphones, use a 3.5mm audio cable to connect the EP765 to your source device. Once the audio cable is connected to the EP765, the device switches to wired mode automatically.

5.6 Remote Control

Button	Operation	Function
	Press	Play / Pause; Pick up / Hang up a call
	Press and hold	Power on / Off / Entering Pairing Mode / Reject an incoming call
+	Press	Volume Up
+	Press and hold	Next track
-	Press	Volume Down
-	Press and hold	Previous track

6. Charging

Connect the EP765 to a powered USB port using the provided USB charging cable. While charging, the Status LED will light red and become blue once the battery is fully charged. A full charge takes approximately 2 hours depending on power input.

Note: Ensure the output voltage from the USB port or the charger is 5V. Charging voltage greater than 5V may damage the headphones.

7. Specification

Bluetooth Specification	Bluetooth V5.0 with aptX-LL
Operating Range	10m
Frequency Response	20Hz-20kHz
Transmission Frequency	2.40GHz-2.48GHz
Support Profile	HSP/HFP/A2DP/AVRCP
Speaker Diameter	Ø40mm
Impedance	32Ω
Speaker Output	20mW x 2
SNR	≥85dB
Distortion	≤1%
Noise Reduction Level	30+/-5 dB
Battery	3.7V/ 450mAh Built-in Li-Polymer Battery
Charging Voltage	5V DC
Bluetooth Working Time	About 20 Hours
Bluetooth ANC Working Time	15 Hours
Charging Time	About 3 Hours
Standby Time	900 Hours
Charging Port	USB TYPE C
Weight	270g
Dimensions	178X80X188 mm

8. Troubleshooting

Problem	Solution
Won't turn on.	Please charge the EP765.
Can't find the EP765.	Confirm the EP765 is in pairing status and within 10 meters from the device.
Can't install the driver for EP765 on a computer.	Update the driver of the Bluetooth module on your computer.
The sound quality is intermittent in Bluetooth mode.	Disable the Wi-Fi on your source device.
No sound.	Check the volume on both the source device and the EP765.
Noise cancelling not working.	Please switch the ANC on. Please charge the internal battery of the headphones.

9. Warranty

This product is guaranteed for twelve months from the date of the original purchase. In the unlikely event of any defect arising due to faulty materials or workmanship, the unit will be either replaced or repaired free of charge (where possible) during this period. An alternative product will be offered in case the product is no longer available or repairable.

This warranty is subject to the following conditions:

- The warranty is only valid within the country where the product is purchased.
- The product must be correctly installed and operated in accordance to the instructions given in this user manual.
- The product must be used solely for domestic purposes.
- The warranty only covers the main unit, and does not cover the accessories.
- The warranty does not cover the damage caused by misuse, negligence, accident and natural disaster.
- The warranty will be rendered invalid if the product is resold or has been damaged by inexperienced repairs. The manufacturer disclaims any liability for incidental or consequential damages.
- Please consult our customer adviser before returning any product; we are not responsible for any unexpected product returns.
- Any faulty product must be kept and returned in the original packaging with all the accessories and the original copy of the purchase receipt.

The warranty is in addition to, and does not diminish, your statutory or legal rights.

Industry Canada Statement

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept interference, including interference that may cause undesired operation of the device.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

No Unauthorized Modifications: Do not make any changes or modifications to this product without the prior express written approval of August International Ltd. Any changes or modifications made without express written approval could void the user's authority to operate this product.

For details of further relevant technical standards, please contact us at the address above.
