User Manual

1. Introduction

This wireless presenter is designed to control your computer during presentations. It gives you the freedom to speak without having to stand by your computer or relying on an assistant. Simple to use, just plug and play, no driver required.

The device enables you to control your computer wirelessly from up to 15 meters (48 feet) away, using a Radio Frequency (RF) transmitter that doesn't require line of sight to your PC. With its in-built laser pointer, the LP180B is the ideal tool for presentations, teaching, meetings, speeches, training etc.

2. Main Features

- Wireless trackball mouse
- Red laser pointer
- RF signal receiver
- Page up/down buttons
- Plug and Play
- Remote control range: up to 15m

3. Parts & Functions

3.1 Front

3.2 Back

4. Battery Installation

- The unit is powered by 2 x AAA batteries
- Remove the battery compartment cover
- Insert 2 x AAA batteries into the battery holder
- Replace the battery compartment cover

Note:

- 1) Always follow polarity instructions when inserting batteries.
- 2) Remove spent batteries from presenter immediately.
- 3) This device will automatically power off after 15 minutes inactivity. Press any button to reactivate it.
- 4) Remove batteries when not in use for an extended period of time to avoid possible damage from battery corrosion.
- 5) If the presenter does not function correctly or if the operating range becomes reduced, please try replacing the batteries.
