## Product Description

- The DTV905 from August is a stylish, slim-line, high quality, portable Freeview TV. With a built in USB port, you'll be able to watch all your favourite digital media, as well as live TV, on its pin sharp, 9" digital LCD screen(22.9cm).
- Perfectly sized for a bedside table, kitchen cabinet or to add a TV to your caravan, it can also be easily taken with you on holiday or harnessed to the back of your car seats headrest to keep the kids entertained on long journeys. The internal rechargeable battery, gives up to 2.5 hours of playback between charges.
- August have manufactured this TV using the latest technology and included features that are usually only seen on high-spec PVR's or dedicated Freeview boxes; Such as the ability to setup Scheduled Recording and enable Subtitling when available.
- As the DTV905 has both AV-in and Out, you can watch your recorded shows or digital files on your living room set (just by attaching the cable), or hook it up to your DVD player or games console as a high resolution monitor.

  - Earphones
  - Remote control with battery
  - User manual
- In/Output Ports:
  - USB port
  - AV In/Out
- - HDMI Out
- - Antenna in
- - Headphone socket
- - Power input
- Energy Consumption: 10Watt
- Annual Energy Consumption: 14kWh/annum
- Efficiency class: B
- EAN: 5053047001528

Please note that the signal strength in some areas may not be sufficient to support TV reception using a portable aerial. The distance from the closest transmitter and other factors such as surrounding buildings, the walls of your house, weather and electro-magnetic interference caused by power and telecommunication infrastructure may affect signal strength. Changing location may improve signal reception and a rooftop aerial designed for digital TV can be used to achieve the best possible reception.
